

How We Do It

Whether you prefer to redesign or reuse, Style My Abode can repurpose what you already have in your home while incorporating some key new pieces by following these 3 principles.

RESTYLE

Compliment your décor and accessories

REDESIGN

Change the flow of the room

REPURPOSE

Take what you have and use it in a new way

“Style My Abode assisted us in decorating our Cape home. The vision boards they created took into consideration both our style and the functionality we were looking for. The process helped us execute quickly and efficiently.”
